

KEVIN KEIPER

SENIOR UX DESIGNER

kevin@kevinkeiper.com | www.kevinkeiper.com | 415-926-1935

Senior UX designer with 10+ years owning ambiguous, data-dense design problems end to end for enterprise and B2B platforms, often as the sole or lead designer with minimal direction. I take products from research and flows through high-fidelity design and into shipped product, extending and strengthening design systems as I go. I mentor other designers to raise the bar around me, and deliver the business value of design.

EXPERIENCE

Principal — Homebound.design Aug. 2022 – Present *Freelance design studio — website design and build, CRM email campaign management for clients across industries*

- Ran a freelance design studio covering website design and build plus CRM email campaign management for clients across industries
- Designed and validated an AI-copilot concept generating dynamic, goal-driven user flows, synthesizing real and AI-generated user interviews into a validated design direction

UX Strategy Consultant — Apex Systems (EMC Insurance) Aug. 2024 – Nov. 2024 (Full-time/Staffing) *Staffing agency engagement — partnered with product, design, and engineering to overhaul large-group insurance underwriting tools*

- Led design for internal underwriting tools at EMC Insurance, an enterprise B2B platform, owning an ambiguous, data-dense workflow problem end to end
- Coordinated with product and engineering to implement design-system components that closed gaps and reduced rework and UI bugs

Creative Lead — Photon Infotech Mar. 2022 – Mar. 2024 *Digital agency*

- Contributed to Citi Bank's private banking design style guide and component library
- Built a design-system solution for client Neighborly, extending patterns that engineering teams composed from directly

Principal Product Designer — BrightPlan Mar. 2016 – Mar. 2018 *Fintech startup*

- Led design on a financial wellness benefit platform, building personas and journey maps that guided the product, which launched to the Google Play Store after my departure, contributing to a 55% lift in employee engagement
- Designed the MVP of the financial wellness and investment application and its component library

Principal Product Designer — Amplifier Strategies Jul. 2015 – Jan. 2016 *Digital agency*

- Led UX for a dashboard and workflow tool combining field research with data design to make complex, technical information legible as decision support
- Supported a poverty-reduction platform in Bangladesh that helped distribute \$10M+ in program funds, pairing rural field research directly with design decisions

Sr. Product Designer — Rocket Lawyer Jul. 2012 – Apr. 2014 *Legal services*

- Owned UX/UI for Rocket Lawyer's native mobile app, live in the App Store
- Designed a structured, multi-step intake flow for complex legal workflows
- Designed an "Ask a Lawyer" feature that matched users to attorneys, built through journey maps and prototypes

Full work history available upon request.
